

Innovative Exam Preparation Cambridge First / Cambridge Advanced Certificate (FCE / CAE)

Why innovative? Because we want to make the most of the time we have in class. The main focus of this course lies on practising the oral exam, speaking and building vocabulary. We will give you writing assignments and practice tests (exam papers) for homework. We will also provide you with hands-on tips, e.g. which phrases will buy you time when you're lost for words during the oral exam.

Whether you want to take the exam or not; this is the perfect course to further your English skills and take them to the next level.
